The Archives of Fathers Piarists in Cracow

SUMMARY

In the paper the sources preserved in the Piarists collection in Cracow is presented. The gathered collection is connected with education, religion and administrative-economic problems of the Order. The materials are divided according to several Piarists collegia and represent various research works. The most interesting and the biggest are the materials from collegia in Cracow, Rakowice and Lida. The Cracow archive has the oldest collection, dated of the 17th century, but it is well known. The materials connected with Lida are completely unknown and need a research work. The materials from the other collegia: Łowicz, Piotrków Trybunalski and Wieluń are also valuable and should be taken under particular consideration.
