**Nobel 1903 dla Marii Skłodowskiej-Curie w prasie polskiej**

**The 1903 Nobel Prize for Maria Skłodowska-Curie in the Polish press**

SUMMARY

The article looks at the extent to which news of the Nobel Prize awarded to Maria Skłodowska-Curie in 1903 was reflected in Polish daily and weekly press of that period. While daily newspapers and some weekly magazine did mention the Nobel Prize, it is quite astounding to find that no information on the topic appeared in any monthly magazine or in such weekly magazines as *Chemik Polski* [The Polish Chemist] or *Wszechświat* [The Universe], which dealt with the subject matter of chemistry and other natural sciences.
